

HOW TO CHANGE THE DATE & TIME on a SAMSUNG PHONE SYSTEM

1. From any Samsung phone press the transfer button then dial 200 (This feature may not work on a 8 button phone)
2. Enter the pass code 1234.
3. Press 1 to enable customer programming.
4. Press the speaker button and you should see CUS. PASSCODE on your screen.
5. Dial 505 and you will see the old date on the top of your screen and the new date waiting to be entered on the bottom of your screen. Generally you will only have to change the time which are the last 4 (HHMM).

ex. OLD:2/05/21/02:1300
New: wmmddy: hhmm

6. Using the dial pad enter the same digits from old until you get to HHMM (hours minutes). Enter the new time (using the 24 hour clock) then press transfer.
7. Clock should now be ok.
